TECHNICAL DATASHEET
Electric Hybrid Vehicle Emergency First Aid Station

Description

The Electric Hybrid Vehicle Emergency First Aid Station is a purpose-designed rapid response solution for workshops servicing electric and hybrid vehicles. Installed close to vehicle servicing bays, this station ensures immediate access to critical emergency equipment and safety information when working around high-voltage systems.

Supplied with a workshop first aid kit, burns treatment and HF Gel for Hydrofluoric Acid Burns and Arc Flash and Battery Spill Kit and Rescue Hook and First Aid Instructions for Electric Shock.

Key Features and Benefits

1 kV Rescue Hook

This electric shock rescue hook is used for the safe retrieval of victims of electric shock while safeguarding the life of the rescuer. The strong hook enables the victim to be pulled clear by gripping the arms, legs, armpits or ankles.

These are a requirement in all live line areas as part of controlling measures following Health & Safety risk assessment.

This model is for use with up to 1 kV system voltage on machinery, substations and live cables. They're proving very popular in electric and hybrid vehicle repair and service workshops.

- Universally popular rescue hook for the retrieval of victims of electric shock with a voltage rating of 1,000 V
- 1.2 m length keeps rescuer safe from harm
- Grey HD polyethylene, with high temperature stabiliser additive, and 2% U.V. stabiliser for high U.V. protection. Excellent chemical resistance.
- Widely used by the Formula-E teams and all the motor vehicle manufacturers
- A convenient size for everyday use and can be mounted on walls
- The Safety Rescue Hook must not be stored permanently in direct sunlight.
- Anticipated Life: 10 years. The year of manufacture is embossed on the hook.
- Suitable for outdoor storage, (e.g. outdoor substation) on account of U.V. stabilisation additive.
- Good stock always maintained for free next-day delivery
- Hook Dimensions: 25 mm dia x 1,000 mm

Dimensions

- Board size: 910mm(W) x 930mm(H)

PRODUCT CODE: ERK100

Rapid Response Spill Kit

- 1kg High-Performance Acid Spill Neutraliser x1
- Chemical Absorbent Pads x2
- Disposal Sacks with Zip Ties x2
- Alkali Spill Neutraliser: 1 Litre (5% Boric Acid Solutions in H_2O) x1
- Disposable Apron x1
- Wooden Spatula x1
- Pair of Heavy Duty Nitrile Gauntlets x1
- Pair of Safety Goggles x1
- Litmus Test Paper for NiMH Battery Spill Kit x1
- Comprehensive Instructions and MSDS x1
- Storage Case x1

Workshop First Aid Kit

- Burnshield Dressing x1
- Eyepad Dressing x2
- Large Dressing x3
- Medium Dressing x2
- Tuff Cut Scissors x1
- Conf Bandage x1
- Microporous Tape x1
- Foil Blanket x1
- Finger Dressing x2
- Resus Device x1
- Triangular Bandages x2
- Adhesive Plasters x40
- Nitrile Gloves x6 pairs
- Saline Wipes x20

Burns Kit including HF Gel

- 40g HF Gel x1 (for Hydrofluoric Acid Burn)
- Bandage Conforming x4
- Burnshield 10cm x 10cm x6
- Burnshield Hydro Gel 50ml x1
- Burnshield Digit Dressing x1
- Eye Wash 20ml x3
- Gloves Nitrile Pairs x2
- Microporous Tape x1
- Scissors x1
